

Gemmechu Bekele

AI Software Developer | AI-Powered Full-Stack Developer

Phone: +251 939 322 619 | Email: gemechu.bekele.berga@gmail.com

PROFESSIONAL SUMMARY

AI Software Developer focused on building modern web, mobile, backend, and AI-powered applications. Familiar with frontend frameworks, server-side development, relational and NoSQL databases, and AI application patterns such as AI agents and Retrieval-Augmented Generation (RAG). Interested in creating useful, maintainable software and continuing to grow through practical projects and collaborative development.

TECHNICAL SKILLS

Frontend	HTML, CSS, Tailwind CSS, Bootstrap, JavaScript, TypeScript, React, Next.js, shadcn/ui
Backend	Node.js, Express.js, Bun, Python, Django
Mobile	Dart, Flutter, React Native
Databases	PostgreSQL, MySQL, MongoDB
AI Development	AI Agents, Retrieval-Augmented Generation (RAG)

EDUCATION & PROFESSIONAL TRAINING

Evangadi — AI-Powered Full-Stack Development

A2SV — Data Structures and Algorithms (DSA)

ALX Africa — Software Development

PLP Academy — Mobile Development

DEVELOPMENT FOCUS

- Building responsive, accessible user interfaces for web applications.
- Developing APIs and backend services using JavaScript/TypeScript and Python technologies.
- Exploring AI-powered applications, including agent-based workflows and RAG patterns.
- Building cross-platform mobile applications and working with SQL and NoSQL data stores.
